

Living room accent wall Concrete

Graphic. Cosy. Contrasting. The loft is daring and headstrong. The walls feature the strong contrast of black and white and the floors are covered with distinguished and respectable oiled parquet. The bathrooms make use of ceramic tiles that resemble concrete, which are complemented by the white paint on the walls. Black interior elements are combined with natural wood.

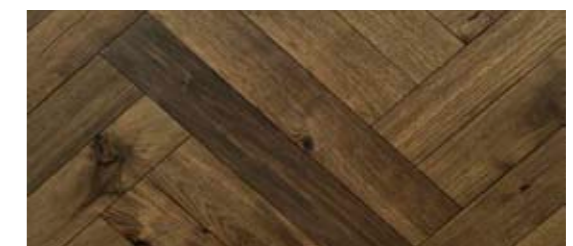

**Interior door**  
Floor-to-ceiling door  
with black oak veneer

**Switch**  
Berker R series
